signaling receptor activity

transmembrane signaling receptor activity DNA-binding transcription factor activity

molecular transducer activity

DNA-binding transcription factor activity, RNA polymerase II-spec enzyme inhibitor activity

peptidase regulator activity
extracellular matrix structural constituent dase inhibitor activity
identical protein binding peptidase regulator activity
endopeptidase inhibitor activity
protein homodimerization activity endopeptidase inhibitor activity
chitin binding

glycosyltransferase activity

UDP-glycosyltransferase activity

hexosyltransferase activity

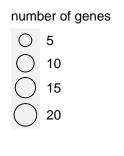

solute:monoatomic cătion symporter activity

solute:monoatomic cătion symporter activity

solute:monoatomic cătion symporter activity

solute:monoatomic cătion symporter activity

salt transmembrane transporter activity transmembrane transporter activity
